Docket No. 98N-1265

Food and Drug Administration

5600 Fishers Lane

Rockville, MD. 20857

1080 '99 MAR 23 AIO:04

I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS: I have tried several synthetic HRT preparations and experienced severe side effects. The Natural HRT that I receive now from an out of state compounding pharmacy has been a God send for me. Natural HRT is much safer for women, they are made from the same hormones we produce in our bodies. They enable me to live normally and alleviate symptoms of menopause that made my life extremely uncomfortable. I want to continue to have the choice of where I obtain these natural products. The Government controls enough of other aspects of my life - leave women the opportunity to obtain the products that can be tailor-made for each individual - not a "one fits all" synthetic product that is dangerous to our health. We deserve this right! I am a nurse and have done much reading and research and am convinced this is the safest choice - Don't take it away from women!

Please fold, seal, and mail by March 22
